

Advantiv Limited – Environmental Policy

Advantiv Limited is committed to proactively minimizing the impact of its activities on the environment.

The key points of our strategy to achieve this are:

- Caring for the environment and the prevention of pollution.
- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Promote the policy of re-use of materials used internally.
- Source and promote a product range to minimize the environmental impact of both production and distribution activities both internally and those of its supply chain. This includes the ongoing promotion of Advantiv's Energy Efficient Product Portfolio.
- Meet or exceed all the environmental legislation that relates to the Company as required by any accreditation achieved and/or a client's mandatory request.
- Communicating our policy within Advantiv and to our business partners.

All Advantiv staff members and senior management are responsible for the environmental aspects of the business and work proactively in reducing the impact of its activities.

Advantiv's environment policy is reviewed annually.
